Features

Body

Painted finishes are powder coated for abrasion resistance. Steel metal clips secure to housing. Can be used in low or line voltage applications. Trim will adjust 15° from vertical position.

Location

Suitable for dry locations

Approved Bulb

Trim accommodates one MR-16 or GU-10 based bulb. See Housing for maximum wattage according to selection.

SPECIFICATION

Application	Recessed Trim
Approved Location	Dry
Finish	Matte White with Anodized Aluminum
Bulb	MR-16 or GU-10
Warranty	3 years

Beach Lighting trims are certified to be used only with Beach Lighting housings. Any Beach Lighting trim used with a different manufacturer's housing will void our certification and our warranty.

Description

The Beach Lighting 4" round trim is suitable for most indoor locations.
