D: 5"
H: 2"

When installing trim in a new construction recessed housing, electrician must leave access to connection box. Beach Lighting will not be held responsible for any installation where access to connection box is restricted. This product is recommended for houses or areas where there is access from the top of the drywall.

Beach Lighting trims are certified to be used only with Beach Lighting housings. Any Beach Lighting trim used with a different manufacturer's housing will void our certification and our warranty.

Due to our continued efforts to improve our products, products specifications are subject to change without notice.
